Professional Summary

Computer Science Engineering undergraduate with hands-on experience in **software development** through internships and projects. Proficient in **Java** as a core programming language, along with **C++, Python, JavaScript, and SQL**. Strong foundation in **OOP, Data Structures and Algorithms, DBMS, and programming fundamentals**. Experienced in developing applications, integrating **REST APIs**, working with databases, debugging applications, and using **Git and GitHub**. Possess strong analytical and problem-solving skills with an understanding of software development practices.

Education

Kanpur Institute of Technology, Kanpur 2023 – Present
Bachelor of Technology in Computer Science Engineering (Honors in Cybersecurity) **CGPA:** 8.74/10

S.J. Education Centre, Kanpur 2022 – 2023
ISC Class XII **Percentage:** 90%

S.J. Education Centre, Kanpur 2020 – 2021
ICSE Class X **Percentage:** 93.83%

Technical Skills

Languages: Java, C++, Python, JavaScript, C, SQL

Core CS: OOP, Data Structures & Algorithms, Programming Fundamentals, DBMS

Databases & APIs: MySQL, MongoDB, SQL Queries, REST APIs

Testing & Debugging: Postman, API Validation, Troubleshooting, Debugging

Tools: Git, GitHub, VS Code

Software Development: Software Engineering, Testing, Documentation

Experience

Artificial Intelligence Intern — IBM Developer Skills Network / IBMCEP Jun 2026 – Aug 2026

– Developed a recruitment platform using **MERN Stack, REST APIs, JWT, and RBAC**, implementing resume screening, candidate ranking, and skill-gap analysis.

Full Stack Developer Intern — Unifinder May 2025 – Oct 2025

– Built responsive web application features using **React.js, Node.js, MongoDB, and REST APIs**, developing reusable components and dynamic university listings.

Projects

Intervix-AI – AI Interview Preparation Platform **Live**

– Developed a web application using **React.js, Node.js, REST APIs, JWT, and Gemini AI**, featuring voice interviews, automated feedback, and performance analytics.

LexiAI – AI-Powered Legal Document Assistant

– Developing a document analysis application using **React.js, Node.js, Express.js, MongoDB, and Gemini AI**, featuring document summaries, clause analysis, risk detection, and simplified legal explanations.

Coding Profiles & Achievements

- Solved **600+ problems on LeetCode**, demonstrating Data Structures and Algorithms proficiency.
- Earned **5-star ratings in Python, SQL, C++, Java, and C** on HackerRank.
- Secured **1st place** among **500+ participants** in a college coding competition.
- Contributed to **open-source projects** through bug fixes, feature enhancements, and documentation.
- Served on the **core organizing team** for technical events, supporting event coordination and execution.
